

■ Innoplast Cleaner

1/1

Bottle with pulverizor - 500 ml

Innoplast Cleaner is a specially developed liquid cleaner for almost any type of plastic. Because of its unique composition, this product removes tenacious contamination, such as remaining polishing agent, cleaning deep down to the pores. Moreover, Innoplast Cleaner eliminates very efficiently and safely nicotine, grease and dirt from plastics in both inside and outside applications. After cleaning, the treated surface will regain its original appearance again.

Innoplast Cleaner is the ideal professional cleaner for removing tenacious contamination of plastic bumpers, protective and decorative strips, canvas, doors, frames, legs of tables/chairs, etc.

Innoplast Cleaner can be applied with a damp Inno-Cleaner (art.no. 04.1701) or sprayed directly on the surface to be cleaned. In case of structured surfaces, the use of a long-haired brush specially developed for this kind of purpose (art.no. 90.4107) can contribute to a deeper cleaning. It is advisable to use Innotec Innoplast Protector (art.no. 04.3155) to re-protect the cleaned surface.

Innoplast Cleaner is ready-for-use and does not require diluting. The product comes in a user-friendly 0.5 l spray can and is ready for immediate use.
